
PERFIN ID R 2.3

By Bob Combs, LM24

I was recently looking through a pile of 2000+ covers from the Pennsylvania area and near the bottom of the box in the next to the last batch was this find; a complete cover of R 2.3 with a corner card ID (shown)!

The Official Newsletter of the Perfins Club * APS Affiliate 57

This envelope was cancelled on December of 1981 (Brookville, PA), which according to the "Catalog of United States Perfins", was near the end of its usage (1982). No ID is given in the catalog but a location of Harrisburg, PA is given.

This perfin appears to be another part of the State of Pennsylvania postage control system. I hope that some Perfins Club member will get telephone Harrisburg (or Jefferson County) and try to get positive use information. Good luck!
